Your Home on the Water...

DESIGNER C•O•L•O•R SERIES

OUR DOCKS ARE BUILT WITH W.A.V.E.PRO TECHNOLOGY
Engineered to master the waves and weather.

Imagine the colors of your waterfront. Deep browns and light grays where shore meets woods. Silver clouds above a calm blue lake. Sand and stone, green trees and sun-filled skies.

The shades of your favorite days are gathered in our Designer Color Series. Eight unique expressions of style and taste, one perfect for you and your waterfront.

Find the colors of your home on the water. Your dock is waiting.

rich earth tones.

Warmth is more than the sun on your face, more than the midday breeze.

Warmth is taking a comfortable chair at water's edge, savoring the shades of hills and shore. Knowing you are truly where you belong.

The familiar light shades and deep tones of your shore are captured in Woods N' Water. Calm and graceful, it's your invitation to relax in comfortable surroundings and enjoy the warmth of home on the water.

DESIGNER C•O•L•O•R SERIES

Rich, lasting color is achieved courtesy of architectural powder coating on decking, railing and roofing for stunning waterfront statements.

Woods N' Water

Roofing: Burnished Slate

Railing: Burnished Slate

Decking: Buckskin

warmth

a splash of color...

The fresh breeze that slips across your deck chair. A lovely bit of shade with your feet in the sunshine. The pleasures of life's cool comforts.

Savannah is a refreshing wave of subtle gray and engaging blue. Confident, stylish and a little playful, like a dive in the lake on a day in the sun.

DESIGNER C•O•L•O•R SERIES

Beautiful, breezy color palettes are available through powder coating finishes. Choose yours today!

Savannah

Roofing: Hawaiian

Decking: Granite Gray

cool off

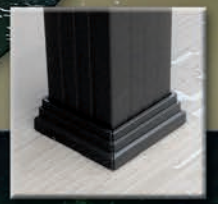

elegant landings.

Sunrise and sundown. Joyous gatherings and soft conversations. Alone or with friends, life on the water is sweeter with contrast.

With bright shades and dark accents, Charleston captures these contrasts with sophisticated style. Composed and confident, it's the perfect companion for whatever today, and tomorrow, may bring.

SERIES

There's a calm in the shore that slips to the horizon. Sand and stone paint a restful picture; softly lapping waves invite you to pause.

The shades of the shore are the colors of Driftwood. In rich slate and subtle gray, it's tranquil, elegant and simple – a true complement to your shoreline.

Complete your color palette with coordinated accessories, like a jumbo dock locker for watertight storage and security.

Roofing: Burnished Slate

Railing: Burnished Slate

Decking: Granite Gray

serene

subtle hues...

The sun is almost up, and a light mist dances over the water. Coffee in hand, you sit in the silence and enjoy the last minutes of dawn. There's nothing to do today but relax.

In gray, silver and slate, Silver Ridge is a refined addition to your shore. Confident yet understated, distinct yet easygoing, and always at ease in its natural setting.

DESIGNER C•O•L•O•R SERIES

Color coordinated jumbo dock locker and dock closet store and protect belongings — for a complete and finished look.

soothing style

a natural blend.

Pause and take in the shades that surround you. Tan branches dip to the water from sandy shores. Light sand fades to deep brown in the wooded hills. Composed, undisturbed and in perfect harmony.

Cedar Creek shares these many colors. With shades of tan and brown, it's calm, familiar and comfortable, the perfect complement to serene settings and natural beauty.

DESIGNER C•O•L•O•R SERIES

Design your dock to your specific needs...enjoy the addition of a covered PWC slip.

Color coordinated accessories, like a jumbo dock locker, blend perfectly with powder coated finishes, for a complete look!

Roofing: Brown

Railing: Hearthstone

Decking: Buckskin

relax

canopy of shade...

Morning reflects off cool lake waters only to get lost in deep, rich woodland shadows.

Strong, stately, but subtle, the colors of Timberline command a presence granted to nature's towering hardwoods.

Deep brown and reddish hues offer a canopy of shade — for quiet reflection, casting a line or an afternoon nap.

DESIGNER C•O•L•O•R SERIES

Deep, rich powder coated color palettes create a lasting shoreline statement.

stately

personalize it...

Make it your own. Your style. Your way.
Choose from our decking, railing and roof color lines. Mix and match. Get creative. Go whimsical or traditional or somewhere in between. Or think completely outside the existing colors and share your vision. We can create it. Just for you.

Your design. Your color palette. Your home on the water.

DESIGNER C•O•L•O•R SERIES

Custom dock colors were created to complement a distinctive waterfront home.

Our popular Hearthstone LockDry decking sets a colorful base for a vibrant red powder-coated frame and black roof and railings.

Our customer's blend of Buckskin decking, Hearthstone rails, Burnished Slate pickets and covered sundeck roof showcases a personalized color palette for a show-stopping dock!

Flotation Systems offers the highest quality architectural powder coat finish available — for flawless, durable color.

Rustic railing and posts create a stunning lakeview statement paired with granite gray decking — and crowned with gray roof panels.

Our finish is the beginning of beautiful, lasting color.

PowderTec

Powder Coating

Amazing Color Provided by PowderTec

Powder coat provides a deep, colorful finish without compromise. Perfectly beautiful, amazingly durable finishes are available in an almost endless variety of colors and textures.

Powder coat finishes are highly resistant to all forms of wear, including scratching, fading, chipping and corrosion. Powder coats are chemical resistant and good electrical insulators due to the thick coverage.

Powder coated finishes are consistent, uniform, and free from common wet paint flaws. The finish retains its color and gloss over time, and a vast variety of colors, finishes, and textures are available without the need for special painting techniques.

Unlike paint, powder is free from volatile organic compounds (VOCs) and polluting solvents for a more environmentally-friendly product.
